1. An item of campaign expenditures is any money spent or the receipt of goods or services paid for on the candidate's behalf or by a candidate to elect said candidate to office.
2. Campaign expenditures include spending money or accepting goods or services.
    c. A good is any item, product, or commodity that is provided for sale.
    d. Service is the provision of labor in exchange for compensation.
    e. The value of a good or service shall be determined as the actual amount paid for the good or service, or if donated, the most likely price the good or service would have cost if purchased.
    f. If a good or service is offered at a discounted rate, the standard undiscounted rate shall be used to calculate campaign expenditures.
        i. However, if all campaigning parties in an election could have reasonably obtained the same or similar discount, then the discounted rate shall be used to calculate campaign expenditures.
    g. The provision of labor and expertise to a candidate does not constitute a campaign contribution if the person, persons, or entities providing those services are volunteering and are not being compensated.
    h. If a person, persons, or entity provides services at a discounted rate, the difference between the standard and customary rate and the actual rate levied is not a campaign contribution.
        i. This includes, but is not limited to: volunteering to collect petition signatures, volunteering to "chall," hand out campaign materials or advocating for the election or defeat of a candidate, designing websites or campaign materials, providing advice to candidates.
3. An Independent Candidate may not spend more than the budget cap established for a ticket for the position they are running for.
    c. Independent candidates may not pool together money in the furtherance of their campaigns.
    d. Tickets may not give any campaign contribution to individual candidates and vice versa.
4. Tickets may not pool together money in the furtherance of their campaigns.
    c. Tickets may not give any campaign contributions to each other or to Independent Candidates.
5. Executive candidates may not spend more than six hundred dollars ($600) in the furtherance of their campaign.
    c. A ticket with executive candidates may not spend more than six hundred dollars ($600) in the furtherance of their campaign.
6. An individual representative candidate may not spend more than one hundred and fifty dollars ($150) in the furtherance of their campaign.
    c. A ticket with only representative candidates may not spend more than three hundred dollars ($300) in the furtherance of their campaign.
